

## Shady Grove AIRNET Web Authentication Instructions

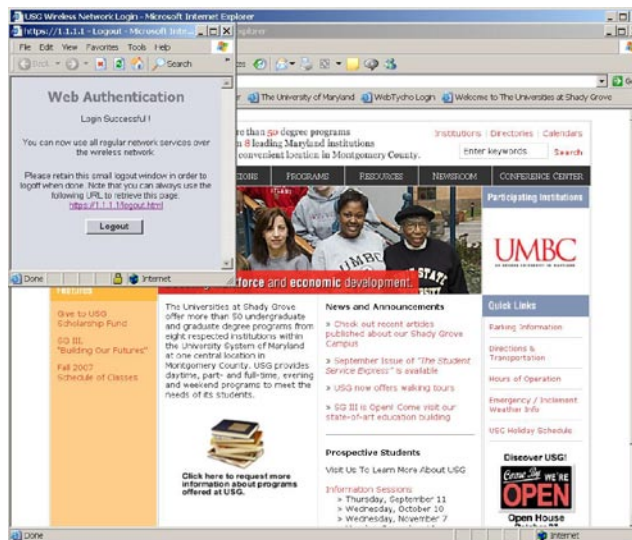

This document provides a step-by-step procedure to access the Internet through the Web-Authentication Portal.

Your computer system should automatically connect to the Secured Wireless Network when it is within reach of the radio signal. If you are not able to connect to the internet, and you have already been setup to connect to the wireless network, Please refer to the Wireless Access Troubleshooting document

1. Access your preferred Web-browser (Internet Explorer, Netscape, Firefox, etc.)
2. You will be re-directed to an authentication page automatically. In order to access the Authentication page you will be issued a secure certificate. Your browser will inform you that a certificate has been issued. Click on the "Yes" button in order to access the login page.
3. Once you have accessed the Web Authentication page, enter the Username and password.

4. You will be directed to USG's web site once you successfully login to the Internet.

Please visit OIT Helpdesk in the second floor in Building III if you have any questions or concerns
