

Student Council 2023-2024 Roles, Responsibilities, and Conduct

Student Council Overview

The Universities at Shady Grove (USG) Student Council (SC) was established in 2002 to serve as an advocate for the USG student body. From 2017-2022, there was a separate Graduate Student Association (in addition to the SC), and from 2022-2023 the two groups were combined to form the Student Leadership Advisory Council (SLAC). With the evolution into USG 2.0, SLAC decided to rename the group (of both graduate and undergraduate students) “Student Council”. This was due to increased name recognition, not using an acronym that may be confusing to community members, and using a title that better represents the primary career competencies of leadership, teamwork & collaboration.

The Student Council strives to provide a forum for students to voice their concerns and to facilitate the undertaking of improvements to enhance the student experience at USG within the USG 2.0 lens. This includes a greater emphasis on industry hub representation as well as improving career readiness competencies. Members meet regularly, attend various meetings, and engage in activities to better USG.

Mission

The Student Council at the Universities at Shady Grove serves as an advocacy and advisory group which acts as a liaison between the students, administration, and community. Through engagement in campus programs, industry hubs, and the Hire U initiative, council members draw on their unique understanding of the fluid, flexible student experience to foster belonging, pathway development, and preparedness for careers.

Organizational Structure and Selection Process

The USG Student Council (SC) is comprised of 14-16 undergraduate and graduate students, which represent the four industry hubs, multiple genders, and a mix of new and returning students. All members will be considered representatives of the industry hubs which their program of study aligns with (in some cases, students may represent their secondary hubs). The SC is assigned an Advisor (currently the Manager of Teamwork, Leadership, and Collaboration) who serves as a mentor to the SC members.

Students are selected via an application process that opens in the summer and is due mid-September. The application consists of demographic information, committee and role preferences, a statement of interest, and an optional resume and letter of recommendation submission. Finalists will be invited to conduct an interview before selection, either in-person or via Zoom, with the group's advisor (and possibly others). Interviews will be optional for returning members. Applicants' program representatives will be contacted to ensure they meet all eligibility requirements. Students will be selected based on the strength of their application and interview, with special attention given to creating a diverse group of students academically and demographically.

Two representatives from the Council serve as voting members of the USM Student Council. "The University System of Maryland Student Council (USMSC) is one of four councils established during the restructuring of higher education in Maryland in 1988 to advise the Chancellor and the Board of Regents. The USMSC helps ensure that the System leadership is aware of students' perspectives and responsive to students' concerns and issues. Each degree-granting institution in the USM has two representatives to the Council. The Council meets monthly throughout the school year; its meetings rotate among System campuses."

Two representatives from the Council serve as members of the USG Board of Advisors. The Board of Advisors is "a formally constituted body established under the auspices of the University System of Maryland Board of Regents. Its principal responsibility is to represent broad community interests and to ensure that student, business, local and state government, and higher education needs are addressed in the development of the Universities at Shady Grove."

Four representatives from the Council serve as the student leaders of their respective Industry Sector Hubs. These hubs "will streamline USG academic program engagement by helping to identify priorities of need and align resources for each industry hub, thus creating more robust opportunities for students."

The rest of the Council members will be Campus and Community Representatives, serving on a variety of USG and local committees to support the mission of the Student Council.

Member Roles and Responsibilities
